

## Rifiniture d'Interni (Marzo - aprile 2011)

### LUCIFERO'S: EUROLUCE 2011

Light and shade, technology and space, bright and dark: Lucifero's returns to EuroLuce to present its lighting systems and new products with an exceptional stand designed by architect Davide Zagari. In a chromatic play originating from the combination between white and black, there are the new research's

developments regarding the **Segment** and **Minifile** products that offer a dynamic confrontation complying with the new lighting trends, between functional needs and emotional suggestion. "The work - explains the architect - is a kind of dimensional rationalisation of an empty space marked by the near dichotomy of emotional contrasts represented by the succession, alternation and, sometimes, overlapping of black and white colours.

developments regarding the **Segment** and **Minifile** products that offer a dynamic confrontation complying with the new lighting trends, between functional needs and emotional suggestion. "The work - explains the architect - is a kind of dimensional rationalisation of an empty space marked by the near dichotomy of emotional contrasts represented by the succession, alternation and, sometimes, overlapping of black and white colours.

### ALTREFORME: DISTRICT BY MARCO PIVA

Altreforme è una giovane ed innovativa azienda, nata nel 2006 dalla solida realtà imprenditoriale di Fontana Group, leader mondiale nella progettazione e realizzazione di carrozzerie in alluminio per le più importanti case automobilistiche. Altreforme trasferisce da vera pioniera nel settore del design, know-how e tecnologie all'avanguardia del settore automotive al mondo del design per proporre nuovi prodotti e progetti in alluminio, contraddistinti da una forte personalità. La collezione **District** firmata da Marco Piva gioca con l'alluminio, ne interpreta le infinite possibili applicazioni presentando contenitori, tavoli e sedute sino ad arrivare all'illuminazione, con prodotti declinabili in varie misure. Il filo conduttore è l'alluminio e la sua versatilità.

### DISTRICT BY MARCO PIVA

Altreforme is a young and innovative company, originated in 2006 from the well-established Fontana Group, world leading company in the design and production of aluminium bodies for the most important automotive houses. Altreforme, true pioneer in the design industry, transfers its know-how and vanguard technologies in the automotive industry to the design world to propose new products and projects in aluminium which stand out due to their high character. The **District** collection signed by Marco Piva plays with aluminium interpreting its infinite applications and presenting containers, tables and seats and lighting systems which are available in different sizes: the fil rouge is aluminium and its versatility.

### MINOTTI: BROOKS

Brooks rappresenta l'equilibrio tra tradizione e modernità, puro Made in Italy, al livello tecnologico introdotto dall'intelligenza artigianale. La tradizione del marchio Minotti guarda al pensiero forte, alla concretezza, soprattutto ad un valore condiviso, la qualità. Solida, durevole, rassicurante. Curiosa, ricerca soluzioni persuasive. Contemporanea, dialoga con la tecnologia e con i nuovi materiali. Struttura portante in metallo verniciata nel colore nero opaco. Struttura cuscino seduta e schienale realizzata con telaio in legno con doghe elastiche intrecciate ad alta componente di caucciù. Preparazione della struttura in poliuretano espanso a quote differenziate ad alta densità e Mindfoam. I cuscini sono rivestiti con trapuntino in piuma d'oca paralizzata che conferisce morbidezza e sofficià esaltandone l'aspetto.

### BROOKS

Brooks represents the balance between tradition and modernity, the pure Made in Italy: high technological level combined with artisanal skill. The tradition of the Minotti brand is aimed at the strong thought, the concreteness and, above all, at a shared value: quality. Resistant, long-lasting and reassuring. A curious research of persuasive solutions. Contemporary, it dialogues with technology and new materials. A metal bearing structure painted in opaque black colour. The structures of seat and back are made in a wooden frame with elastic interwoven strip with a high content of rubber. The frame is prepared in foamy polyurethane with differentiated lifts, high density and Mindfoam. The cushions are covered with thin goose down quilt, which gives softness and fullness enhancing the look.
